## LOCAL NEWS.

**RAILROAD CHANGES**—The Baltimore American in its account of the settlement of the difficulties lately existing between the Baltimore and Ohio and Pennsylvania railroads says: "There is a report that some negotiations in regard to arrangements as to Southern connections are afoot. The B. & O. R. R. controls the Orange and Alexandria Railroad, extending to Lynchburg, Va. The same road is building a road from Lynchburg to Danville, where it will strike the Richmond and Danville Road, controlled by the Pennsylvania Railroad. By a change of the of gauge on a short extent of road a magnificent through connection to Atlanta, Montgomery, Mobile and New Orleans may be effected. The line is however, largely controlled by the Pennsylvania Company, and it was rumored that some proposition as to a connection with it was made by the Baltimore and Ohio at the late conference, but from a careful inquiry it cannot be discovered that anything more than an intimation that it would be desirable to effect some arrangement was made."

**TOLL GATE CUT DOWN**—The cutting down of the toll gate on the Washington Turnpike on Thursday last by those who are compelled to use that road, but who refuse to pay toll on account of the almost impassable condition to which it has been allowed to remain for so long a time, was mentioned in the Gazette at the date of its occurrence. The gate was put up again yesterday, and the road gang on the A. & W. R. R. notified to protect it, but this afternoon a party of six of the residents of the neighborhood, repaired to the toll gate and again cut it down before the road gang, who had notice of their approach could reach the place to protect it. It is feared that the difficulty may result in something serious, as the owners of the road seem determined to exact toll, and as those who have to traverse it are as determined to resist its exaction.

**CORPORATION COURT**—Judge E. M. Loece presiding.—Continuation of YESTERDAY'S PROCEEDINGS.—Partlow vs. Knechtel; motion to strike out amended declaration overruled and demurrer to 3d, 4th and 5th counts in the declaration and overruled.  
 To-day—Taraball & Bro. vs. E. L. Brockett et al.; in default; jury sworn; verdict and judgment against defendant for the sum of \$252.25 with interest from date of judgment.  
 Minor vs. Anderson et al.; issue out of chambers; jury sworn and case in progress. This is a suit brought by a portion of the heirs of the late Col. Geo. Minor, of Fairfax, to set aside a will made by him, and probated in Fairfax County Court purporting to be his last will and testament.

**POLICE REPORT**—Judged by the police reports Alexandria is the most quiet and moral city of its size in the country, notwithstanding its proximity to Washington, which, whether properly or not, bears the reputation of being the Paris of America; but whether the half of what is said to occur in that city is even reported at police headquarters is a matter of some doubt. The only case before the Mayor, this morning, was that of Wm. Cupid, colored, who, for disorderly conduct on the streets, was dismissed with a reprimand. Three fugitives—all strangers, and wayfarers, were accommodated at the station house last night.

**ALBERT FORTUNE**, the notorious negro character, whose escape from the penitentiary at Richmond, yesterday morning, is noticed elsewhere in today's Gazette, after walking some distance out of Richmond, took the night train on the R. & P. R. R., and was recognized by the train conductor, who gave the employee on the train notice, and had arranged for his recapture at Millard station. When a short distance from the station a brakeman spoke to Fortune, standing on the platform, who, perceiving that he was known, at once jumped from the train and made good his escape.

**ODORIFEROUS CHEESE**—When the through train from the North arrived here, this morning, two of the lady passengers called the brakeman and requested him to examine the car in which they had seats, stating that there must be a dead rat or some other dead animal under one of the seats. A search was instantly made for the cause of the disagreeable odor, which, by this time, filled the whole car, and it was found to be a small bundle of Limburger cheese which one of the male passengers had in his pocket.

**PROPERTY SALES**—Green & Wise Auctioneers sold to-day two acres of ground bounded by Montgomery, Madison, Pitt and St. Asaph streets in this city, and over the canal basin—belonging Edward B. Powell, esq.—to the heirs of John A. Washington, deceased for \$1,000—subject to contingent debt right. The same sold yesterday the farm of David Andrews, lying about 34 miles south west of Manassas, containing 110 acres, to Mr. Charles Goodwin, of Michigan for \$2,000.

**OYSTERS**—The minds of the oyster lovers were relieved and their palates gratified this morning by the arrival of a cargo—the first for a week. It was but a sloop load, and though not salt, was rapidly disposed of at 60 cts. and \$1.25 a bushel. Some few also reached here by the bay steamers which arrived this morning. Dealers for the last week have been getting their supplies—shucked—from Washington, but the stock there, it is said, has also become exhausted.

**CLAMS AND CRABS**—Now that oysters are going out of season, and that supplies of them are rapidly falling off, clams and crabs are beginning to make their appearance, and deviled crabs and clam soup are commencing to be served at the restaurants. A large consignment of cooked hard crabs was received here from Norfolk yesterday by express, but the dealer to whom they were sent refused to receive them.

**STEAM ON THE CANAL**—Three canal boats to be propelled by steam are now being built in Cumberland for the coal trade on the Chesapeake and Ohio canal. The propelling machinery is different in all three, and patented in each.

## FIRE ENGINE HORSES.—The Fire Warden

has purchased a new pair of horses for the Steam Fire Engine Hydraulics, as the pair of grays that have for so many years pulled that engine to and from fires have grown too old for service. The grays and \$350 were given for the new pair of chestnuts. The grays were kept at Chatham's livery stables last night, and kicked their stalls down in their efforts to get out during the fire alarm.

**BAPTIZING**—The Princess-street colored Baptist Church has made many converts of late, but as the weather and tides have for some weeks past been unfavorable on Sundays, the ceremony of publicly baptizing there has been delayed. The tide will be high between nine and ten o'clock to-morrow morning, and should the weather be favorable at that time the baptizing will then take place in the Potomac, off Battery Rodgers.

**COAL TRADE**—The receipts of Cumberland coal by canal, at this port, for the week ending to-day, were, by J. P. Agnew, 2,622; by Hampshire and Baltimore Coal Co., 1,553 tons; by American Coal Co., 500 tons. The shipments during the same period were, by the American Coal Co., 500 tons; by the Hampshire and Baltimore Coal Co., 816 tons; by J. P. Agnew, 1,085 tons.

**BOLD THIEVES**—Two colored boys went in to the second hand clothing store of Mr. King'sley, corner of King and Henry streets, early last night, and after trying on several pairs of shoes, found pairs to suit them, and then leaving their old shoes behind, sprang out of the door and ran off so rapidly that though pursued they succeeded in making their escape.

**I. O. G. T.**—At a meeting of Potomac Lodge No. 33, I. O. G. T. last night, three persons were initiated members of the order and several proposed, and by a vote of the Lodge it was determined to celebrate its first anniversary at the first meeting in May by appropriate exercises, and that invitations be extended to other Lodges, and the friends of the Lodge.

## LOCAL REVIEWS.

Mr. McKenzie, President of the W. & O. R. R., and several other gentlemen left here to-day for Round Hill, Loudoun county, where a meeting was held to further the interests of that road. The meeting was well attended. Speeches were made by Mr. McKenzie and others, and the work of extending the road to that point will soon be commenced.

Considerable commotion was occasioned among the fresh fish packers at the fish wharf this morning by the sudden rise in the price of ice from 30 to 75 per hundred pounds, some of those interested saying they would be compelled to let their orders remain unfilled, as money would be lost by filling them packed with such high priced ice.

The U. S. steam frigate Wyoming, with the sick and convalescents from the West India squadron on board, passed by here yesterday afternoon on her way to the Washington navy-yard, and is now lying in the forks of the channel, off Giesboro.

The alarm of fire early last night, which brought out the fire department, was caused by the burning of the chimney of the residence of Mr. Wm. Waddles, on Pitt, between King and Prince streets.

It was rumored this morning that the Virginia Midland Railroad Company would commence sending its passengers north by the ferry at this city this afternoon, but the rumor was incorrect.

## TELEGRAPHIC NEWS.

[SPECIAL DISPATCHES TO THE GAZETTE.]

## The Steamer Nederland.

New York, April 18.—A dispatch from Atlantic City late last night reported a furious gale raging and much anxiety felt regarding the Nederland. A wrecking crew was ready to venture to their assistance if signals of distress were returned from the scene of the disaster, stating that several of the crew have been injured and that there are two bodies on board. These, with the custom house officers who went on board the vessel Wednesday make about 100 souls in all.

ATLANTIC CITY, April 18.—The steamer Nederland which has been aground on Brigantine shoals since Wednesday night, was hauled off at 6 o'clock this morning and is now being towed to Philadelphia. It is not believed that the vessel has sustained any injury except the loss of her rudder and screw.

ATLANTIC CITY, April 18.—The powerful steam tug America from Philadelphia has taken on board the Nederland and will probably reach Philadelphia with her by noon to-morrow.

## Hanging.

New York, April 18.—A dispatch from Thomasville, Georgia, states that four negroes were hanged, three of them named E. M. Conick, Nimrod Austin and Chas. Walker, for the murder of a painter named Hall, and the other one, Webster Lyons, for poisoning his wife with arsenic. Thirteen had been made that they would be rescued by some 500 negroes from Florida and portions of Georgia, but the military were held in readiness and went out to carry out such threats were made. They were all hung in the jail yard, and after they were hung the sheriff adjourned the rabble, mostly negroes, to view the bodies before they were taken down.

## Funeral of Dr. Livingstone.

London, April 18.—The funeral of Dr. Livingstone took place this morning in Westminster Abbey and was attended in a great crowd, including a full representation from the Royal Geographical Society. The Queen and Prince of Wales sent their courtesies and marks of respect for the deceased. The Bishop of London said a beautiful selection of flowers to be placed on the coffin. There was a special funeral service every day to-day. Another will be held by Dan Sweeney to-morrow.
